SOLANO COMMUNITY COLLEGE DISTRICT

SHARED GOVERNANCE   **2005**

PROCEDURES

Requests for new or modified policies, as well as issues and concerns, will be initiated through the College Governance Council. Before action is taken on an issue, there may be a first and second reading by the College Governance Council. The College Governance Council will make a reasonable effort to reach consensus on any policy prior to recommendation by the Superintendent-President to the SCC Governing Board. The Superintendent-President will inform the College Governance Council of the Board's action.

Shared governance issues identified by the Academic Senate are to be reviewed by the College Governance Council. The Academic Senate will work with affected parties in the formulation of policies and procedures so that the recommendation to the SCC Governing Board considers input by those affected. The Superintendent-President will present the item to the Governing Board. In those cases where the Governing Board will rely primarily on the Academic Senate, the Academic Senate and Superintendent-President may mutually present the policy to the Governing Board.

Shared governance issues initiated by or affecting students may be reviewed by the College Governance Council. The ASSC will work with interested parties in the formulation of recommended policies and procedures. The recommendation will be reviewed by the College Governance Council and the Superintendent-President before presented to the Governing Board.

Revised: February 2018
